Name _____ Date _____
Unit 2, Week 2, *The Invention of Sneakers*

Answer the following questions using complete sentences and enough detail to explain your answer. Remember to answer ALL parts to the question.

In *The Invention of Sneakers,* we read about the many problems that inventors of sneakers had to overcome before their product could be the popular kind of shoe it is today. In what ways do you think sneakers could be improved? Think about materials, comfort, and design. Be sure to give examples of how this improvement would make them better.
