

We are pleased to announce an exciting PILOT PROGRAM regarding enhancement of health center access and services for members of the Toms River Schools health plan community. Effective January 1, 2019 Toms River Schools and Long Branch Schools Partnership Health Centers will offer full reciprocity of services at both locations. What does this mean for you? It means that Toms River Schools health plan members will have the additional benefit of access to services at *both* Partnership Health Centers located in Toms River *and* Long Branch. Whenever you want services, you may now choose the most convenient location!

We are confident that members and their dependents will enjoy easy access to both health centers. **Please note there are slight differences in what is available at each location.** In addition to the services currently provided at Toms River PHC, the Long Branch Partnership Health Center (PHCLB) also offers *acupuncture*. However, PHCLB does not currently offer pediatric services for children 2 years old or younger. Also, while there is not a pharmacy at PHCLB to fill outside prescriptions, there is a dispensary for common medications provided by PHCLB doctors. The following is a list of the services available to you at the Long Branch Schools Partnership Health Center. As usual, all are without copay or deductible:

- | | |
|--------------------------|----------------------|

| • Urgent Care | • Chiropractic |

The high level of services that you have come to expect at the Partnership Health Center will continue to remain the same, irrespective of which location you use. Both Partnership Health Center staffs will ensure there are no additional wait times, scheduling interruptions, or inconveniences as a result of this new flexibility for members.
