Equitable Participation of Nonpublic Students for Title I, Part A

- To determine enrollment and low-income status of nonpublic students from your district, use the following procedure:
1. Consult with the district transportation coordinator to obtain the number and address of resident nonpublic students.
 2. Review the district's Private School Transportation Summary to identify nonpublic schools and attending students in the following categories: a) Are transported by the district to and from the nonpublic school as mandated by the state; b) Receive aid in lieu of transportation; c) Receive transportation not mandated by the state (courtesy busing).
 3. Identify any students who were offered district-provided transportation but refused this transportation. These students are ineligible for reimbursement (aid in lieu) and will not appear on the Private School Transportation Summary.
 4. Contact local nonpublic schools for students who walk to a nonpublic school.
 5. Reach out through public notice or other means to count students who may not have been counted in other ways, such as students who have not requested transportation or reimbursement.
 6. Once the students are located, contact the nonpublic schools to identify which students qualify as low-income.
 7. Enter both nonpublic enrollment and low-income counts into the NCLB Consolidated Application on EWEG, Step 1 of the Title I, Part A Eligibility screens.

Equitable Participation of Nonpublic Students for Title I, Part A

- To determine enrollment and low-income status of nonpublic students from your district, use the following procedure:
1. Consult with the district transportation coordinator to obtain the number and address of resident nonpublic students.
 2. Review the district's Private School Transportation Summary to identify nonpublic schools and attending students in the following categories: a) Are transported by the district to and from the nonpublic school as mandated by the state; b) Receive aid in lieu of transportation; c) Receive transportation not mandated by the state (courtesy busing).
 3. Identify any students who were offered district-provided transportation but refused this transportation. These students are ineligible for reimbursement (aid in lieu) and will not appear on the Private School Transportation Summary.
 4. Contact local nonpublic schools for students who walk to a nonpublic school.
 5. Reach out through public notice or other means to count students who may not have been counted in other ways, such as students who have not requested transportation or reimbursement.
 6. Once the students are located, contact the nonpublic schools to identify which students qualify as low-income.
 7. Enter both nonpublic enrollment and low-income counts into the NCLB Consolidated Application on EWEG, Step 1 of the Title I, Part A Eligibility screens.

Dear Ms. Rankin,

Thank you for your school's participation in AlcoholEdu during the 2022-2023 academic year. Please contact me via e-mail (KReilly@ochd.org) by April 15, 2023 if your school is interested in continuing the program for next year's freshmen class. If you choose to participate again, the Ocean County Health Department will send you an updated contract for the 2023-2024 school year, which would need to be signed and returned by June 1, 2023. As in previous years, the Ocean County Health Department continues to offer this program to your school free of charge. In an effort to best utilize the AlcoholEdu program, we are excited to offer the option to collect behavioral data. The way this data is collected is through the use of surveys and questionnaires built into the AlcoholEdu curriculum at three points: at the start of the program, at the conclusion of the program, and then one month later. If you want to collect this data, please let me know when you confirm your participation for 2023-2024. Since New Jersey requires active parental consent for behavioral surveys, please note that you will have to receive a signed parental consent for each student to participate in AlcoholEdu. You are not required to have the behavioral surveys added, but should you choose to add it, there are several hassle-free ways to obtain parental consent. Thank you for your time and dedication to the students of Ocean County.

Re: YMCA CBI for 18-21 Class

We are respectfully requesting approval to continue the YMCA CBI program for our 18-21 MD/ID classes during the 23-24 school year.

The program, in Partnership with the Ocean County YMCA, is intended for our 18-21 year-old classes and is designed to facilitate and enhance our instruction of life skills, aligning with their IEP goals.

The students will visit the YMCA weekly and be provided with a variety of sessions. These sessions each focus on a different life skill and is taught by an instructor dedicated just for our students. Our students will be able to learn more about safely navigating community resources and practice skills such as hygiene, daily living, and self-care.

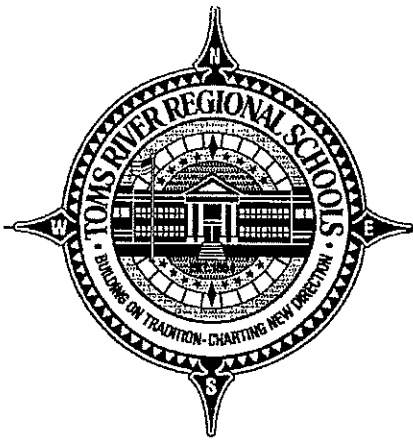

This entire program, including all equipment and staff, continues to be fully funded by a private donor. Toms River Regional busses will transport to and from the YMCA.

We are excited to continue this partnership with the Ocean County YMCA.

Re: Career Exploration for 18-21 Program

Our 18-21 program is requesting permission to continue our partnership with Klees and Applebee's for the 23-24 school year as part of our career exploration skills and opportunities.

During these exploration activities the students engage in various activities including, but not limited to: vacuuming of rugs, sanitizing of furniture and menus, setting tables, rolling silverware, filling condiments such as sugar, salt, pepper and ketchup. These opportunities allow us to provide our students with training that ultimately allows us to place them in potential job sites available through our School to Work program. The career exploration program is designed to set our students up with the skills necessary to find meaningful work once they graduate from Toms River.
