--

The Insurance Committee of the Board of Education of the Toms River Regional Schools met August 18, 2025 from 2:30 PM to 3:30 PM, via Google Meets. This quarterly meeting is not publicly advertised as the committee reviews insurance information, including workers compensation and liability claims, which may include items in litigation or names and case information for individuals, including staff members.

In attendance was Committee Chair, Katie Coyne and Business Administrator-William Doering. Also in attendance was Stuart Migdon with the district health insurance broker, Business and Governmental Insurance Agency (BGIA) and John Forrester and Ron Gillaspie with the district property and casualty insurance broker, Alliant/Boynton.

For the health insurance program, Mr. Migdon with BGIA reviewed the health plan quarterly report provided to the committee which covered 3 years of claims from March 2022 through February 2025. Mr. Migdon discussed the plan costs and trends, and noted that the medical and prescription costs have trended up by 11.35% on a per member per month basis for the most recent period, versus 13.72% for the same period the prior year. The rise in costs is due in large part to some significant medical claims and high prescription drug costs for particular types of drugs. Other key plan statistics and metrics were also discussed, including PHC visits, visit types, care coordination encounters, prescription drug utilization and the prescription drug generic dispensing ratio (which has risen to 83.6%). Mr. Migdon also mentioned that the first round of rebates from CVS/Caremark should come around September 2025, which will help defray some prescription costs. Finally, the committee discussed the ever-rising costs of GLP-1 drugs, as well as the anticipated health benefits of such drugs and the parameters for individuals being covered under our plan.

Regarding property/casualty insurance, Mr. Forrester and Mr. Gillaspie with Alliant/Boynton reviewed the quarterly report provided to the committee for the property/casualty insurance program. This document showed claim costs for the current year to date as well as the prior 5 years. The document also included Inservco Loss Reports for workers compensation and the other lines of insurance, as well as the 2025-26 renewal summary. It was noted that our claim costs continue to track well in terms of auto claims and liability. Workers compensation claims have generally remained in a consistent range, although there was a bit of a bump up in incurred costs for 2024-25. The committee was informed that based on the locations and positions with the largest frequency and cost of claims, efforts will continue to be focused on the paraprofessional roles at several schools, as well as the drivers and aides at the bus garage.
