

2021 "DROP & GO" INITIATIVE!

HELP US GROW STUDENTS' INDEPENDENCE WHILE IMPROVING PARENTS' DROP OFF EXPERIENCE IN THE MORNING!

Do's:

- While you are waiting to drop off your child, collect all belongings and “mask up” to speed up drop off when you arrive at the curb.
- Pull up as far as you can along the curb to make room for as many cars as possible. Your child/ren will walk to their designated door/s.
- As soon as your child leaves the car, pull away from the curb. There are staff members to monitor students as they enter the building.
- Be respectful if staff members remind you of our procedures; they are outside to support a smooth and safe arrival for our students.

Don'ts:

- Do not make multiple stops along the curb. Students can walk to their assigned door from anywhere they are dropped off. (Students who ride buses have a longer walk to their classes than our “walkers” do.)
- Do not get out of your car to assist with coats, bookbags, masks, etc. Students benefit from being independent from the moment they arrive at our building.
- Do not wait to watch your child walk into the building. There are staff members outside and directly inside the building to assist students, as necessary.
