

Welcome Message from Principal Michael S. Pallen

Our vision at Joseph A. Citta Elementary is to embrace and develop the unique abilities of each student through compelling and creative learning experiences. We aim to provide a safe and nurturing environment and instill a sense of pride and self-worth in each student. Our commitment to the students, parents and community of Citta Elementary remains to be at the forefront of our mission. Working collaboratively with local businesses, the fire and police departments and having an open line of communication between home and school continues to be our focus. We strive to help develop and build our students' learning experiences through our community and a student focused environment.

As I embark on my first year at Citta Elementary, I can not begin to express how excited I am for the opportunity to lead this amazing learning institution. I promise to work diligently alongside my dedicated staff to bring out the best in our students with Citta style! Please do not hesitate to call or email me with any questions and to follow all of the many events and activities happening at Citta Elementary on a daily basis on [Instagram](#).

Sincerely,

Michael S. Pallen, Principal
