

Curriculum Corner - January 15th

Science Fair season is just around the corner! We would love to see many friends, parents and family members at one or all of our Toms River fairs. If you are interested in participating as a judge, please contact your school's main office. Intermediate East's Science Fair will take place on Tuesday, January 29th, Intermediate South's on Wednesday, January 30th, and Intermediate North's on Tuesday, February 5th. Each fair will be held immediately following school dismissal, and judging will take place until it is time for students to depart on late busses. An awards ceremony for students, parents, and family members will be held each evening beginning at 5:00 PM. Student winners in each category will be recognized at the awards ceremony. We look forward to seeing everyone!
