### Unit 1 Overview

**Content Area: World Language**

**Unit Title: Fantasy, Myths, and Legends**
Target Course/Grade Level: Spanish 4/5 A, Grades 11,12

Unit Summary: This unit will develop language and content about fantasy, myths, and legends so that students can effectively communicate ideas and information on this topic with peers using academic language and content-related vocabulary. Students will read, write, and interpret authentic texts, discussing the cultural, social, and historical significance. The unit provides ample opportunities for students to engage in higher order thinking and to practice language. Language development is defined through the three performance criteria of linguistic complexity, vocabulary usage and language forms and conventions across the four language domains. The unit demonstrates how to integrate these domains with NJSLS standards for Spanish language learners. Students are exposed to a variety of materials that offer them opportunities to tap into prior knowledge or build requisite background knowledge so they may engage with the various texts in the unit. Through the use of authentic literature students will be exposed to different kinds of texts. The different lessons and activities will expose students to literature, informational text and technology as required in the NJSLS in order for students to use the four domains of listening, speaking, reading and writing; and the modes of interpersonal, presentational, and interpretive. The teacher scaffolds language so students can engage in discourse and higher order thinking skills.

Unit Summary: This unit will develop language skills around the topic of social/political problems and human rights. Students will engage in discussions, readings, and writing assignments about how past and present social/political issues have evolved, and how societal awareness and activism can help to shape our own beliefs and values. The unit will allow students to compare and contrast how other Spanish-speaking countries celebrate and how family structures function differently in other places. The unit provides ample opportunities for students to engage in higher order thinking and to practice language. Language development is defined through the three performance criteria of linguistic complexity, vocabulary usage and language forms and conventions across the four language domains. The unit demonstrates how to integrate these domains with NJSLS standards for Spanish language learners. Students are exposed to a variety of materials that offer them opportunities to tap into prior knowledge or build requisite background knowledge so they may engage with the various texts in the unit. Through the use of authentic literature students will be exposed to different kinds of texts. The different lessons and activities will expose students to literature, informational text and technology as required in the NJSLS in order for students to use the four domains of listening, speaking, reading and writing; and the modes of interpersonal, presentational, and interpretive. The teacher scaffolds language so students can engage in discourse and higher order thinking skills.
Primary Interdisciplinary Connections:

- **NJSLSA.R1.** Read closely to determine what the text says explicitly and to make logical inferences and relevant connections from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
- **NJSLSA.R2.** Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
- **NJSLSA.R3.** Analyze how and why individuals, events, and ideas develop and interact over the course of a text.
- **NJSLSA.R4.** Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
- **NJSLSA.R5.** Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
- **NJSLSA.R6.** Assess how point of view or purpose shapes the content and style of a text. Integration of Knowledge and Ideas

- **NJSLSA.R7.** Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
- **NJSLSA.R8.** Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
- **NJSLSA.R9.** Analyze and reflect on how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.
- **NJSLSA.R10.** Read and comprehend complex literary and informational texts independently and proficiently with scaffolding as needed.

- **NJSLSAW1.** Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
- **NJSLSAW2.** Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
- **NJSLSAW3.** Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.
- **NJSLSAW4.** Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
- **NJSLSAW5.** Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
- **NJSLSAW6.** Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.
- **NJSLSAW7.** Conduct short as well as more sustained research projects, utilizing an inquiry based research process, based on focused questions, demonstrating understanding of the subject under investigation.
- **NJSLSAW8.** Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
- **NJSLSAW9.** Draw evidence from literary or informational texts to support analysis, reflection, and research.
- **NJSLSAW10.** Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

Unit 4 Overview

Content Area: World Language

Unit Title: Movies and Film

Target Course/Grade Level: Spanish 4/5 A, Grades 11,12

Unit Summary: This unit will develop language skills around the topic of movies and film. Students will explore units of study in an advanced language classroom that enriches language development through examining the social, political, and cultural impact of authentic foreign films. The unit provides ample opportunities for students to engage in higher order thinking and to practice language. Language development is defined through the three performance criteria of linguistic complexity, vocabulary usage and language forms and conventions across the four language domains. The unit demonstrates how to integrate these domains with NJSLS standards for Spanish language learners. Students are exposed to a variety of
materials that offer them opportunities to tap into prior knowledge or build requisite background knowledge so they may engage with the various texts in the unit. Through the use of authentic literature students will be exposed to different kinds of texts. The different lessons and activities will expose students to literature, informational text and technology as required in the NJSLS in order for students to use the four domains of listening, speaking, reading and writing; and the modes of interpersonal, presentational, and interpretive. The teacher scaffolds language so students can engage in discourse and higher order thinking skills.

Primary Interdisciplinary Connections:
ELA:

- NJSLSA.R1. Read closely to determine what the text says explicitly and to make logical inferences and relevant connections from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
- NJSLSA.R2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
- NJSLSA.R3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.
- NJSLSA.R4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
- NJSLSA.R5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
- NJSLSA.R6. Assess how point of view or purpose shapes the content and style of a text. Integration of Knowledge and Ideas
- NJSLSA.R7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
- NJSLSA.R8. Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
- NJSLSA.R9. Analyze and reflect on how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.
- NJSLSA.R10. Read and comprehend complex literary and informational texts independently and proficiently with scaffolding as needed.
- NJSLSAW1. Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
- NJSLSAW2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
- NJSLSAW3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.
- NJSLSAW4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
- NJSLSAW5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
- NJSLSAW6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.
- NJSLSAW7. Conduct short as well as more sustained research projects, utilizing an inquiry based research process, based on focused questions, demonstrating an understanding of the subject under investigation.
- NJSLSAW8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
- NJSLSAW9. Draw evidence from literary or informational texts to support analysis, reflection, and research.
- NJSLSAW10. Write routinely over extended time frames (time for research, reflection, and revision) and
shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.
