

COVID-19 Testing

Important update from Toms River Partnership Health Center

Your dedicated, Toms River Partnership Health Center staff is working hard to protect members' health.

Especially at stressful times like these, it is important that primary care needs not be neglected. Call Toms River Partnership Health Center (PHC) anytime to schedule an appointment: **(732) 505-0213**. It is the convenient "home base" of your health plan.

Because COVID-19 poses such a serious public health challenge, your Partnership Health Center has implemented a testing program for all covered members.

Effective immediately, employees and dependents who are eligible for Partnership Health Center services may call (732) 505-0213. Tests will be administered by appointment only. Callers will be scheduled for a tele-health conference and asked basic health questions to determine suitability of a COVID-19 test.

Those who have never used Partnership Health Center's services, and wish now to be tested, are required to fill out routine enrollment and consent forms prior to a scheduled tele-health visit. Please call Partnership Health Center regarding forms and scheduling information.

COVID-19 Vaccinations

Please note PHC will be administering COVID vaccines to members as soon as distribution allocations are received from NJ Dept. of Health. We will advise you at the earliest opportunity regarding availability and scheduling processes.

Also, we have been advised by NJ law enforcement authorities to caution our members that fraudulent vaccines have been spotted in the marketplace, among some private medical practices. Those properly administering the COVID-19 vaccine should have received it from the NJ Department of Health, pursuant to its approval, registration, and distribution processes.
