

Get Your COVID-19 Vaccinations at Your Partnership Health Center for You and Your Family

www.PartnershipHealthCenters.com

Starting this week your Partnership Health Center will be offering COVID-19 vaccinations to you and your family members. We encourage you to call and schedule an appointment to receive a vaccination if you have not yet received one.

We are pleased to offer the single dose Johnson & Johnson vaccine. The CDC states on its website that:

- Use of the Johnson & Johnson COVID-19 Vaccine should be resumed in the United States.
- The FDA and CDC have confidence that this vaccine is safe and effective in preventing COVID-19.
- The FDA has determined that the available data show that the vaccine's known and potential benefits outweigh its known and potential risks in individuals 18 years of age and older.

We are ready to deliver vaccinations safely, at no cost to you.

Currently, there is a limited supply, so this is offered on a first-come-first-served basis. We will keep you informed regarding availability of the vaccine.

Vaccinations will be offered by appointment only. Please call your PHC at (732) 505-0213 to schedule your vaccine.

For your convenience, if you make an appointment for the vaccine, you can go on our website, PartnershipHealthCenters.com, to fill out the required authorization form.

Join us in good health!
